

# Drain Opener

Unclog drains and pipes with this professional strength, alkaline concentrate. This product was designed to unclog drains in food service and other high volume operations. It is fast acting and effective in removing alkaline sensitive blockages. Use this powerful product with care. Do not allow aluminum contact.

Features	-	Related Benefits
Alkaline formula	-	Powerful
Fast acting	-	Saves time and labor
No downstream recondensation	-	Not harmful to plumbing
Effective	-	Saponifies grease, fat, oils
Heavier than water	-	Displaces water over stoppage

#### Areas of Use -

- Restaurants, hotels, schools
- Institutional kitchens/facilities
- Industrial and food processing plants
- Any location which has drains stopped with fats and greases from food sources

#### To Use -

**Grease Traps and Clogged Drains:** Slowly pour 16 ounces into drain. Allow to stand 15 minutes; then flush thoroughly with cold water. Repeat if necessary, letting stand for 45 minutes. For badly clogged traps and drains, several treatments may be required. Let stand overnight before flushing.

**Sluggish Traps and Drains:** Slowly pour 8 oz. into drain; repeat at 15 minute intervals. After several applications, flush thoroughly with cold water.

**See label for complete directions and use only as directed.**
