

Fresh 'N Clean

HAPPY

TOTAL RELEASE FOGGER

Removal of unpleasant odors is simplified with this product. This deodorant does not merely cover up odors; it chemically neutralizes the odor causing molecules without leaving an overpowering scent. It contains fragrance plus a dual re-odorizing system which reacts to eliminate odors. The unique formula continues to work to fight odors long after initial fragrance has dissipated.

Its all-exhaustive packaging allows for complete and thorough hands-off control of odors, without the need for mechanical foggers and vaporizing equipment. The versatile formulation allows its use in fire damaged facilities. Eliminates odors due to smoke, vomit, urine, fecal matter, pets and cooking.

FEATURES

- Easy to use
